

"A Professional Records Management Software"

If you are in the market for a new Police RMS, then you probably know how confusing and potentially expensive this decision can be. With over 30 years of in house programming experience designing software, our goal was to design a R.M.S. system that is easy to use and learn, highly efficient, and affordable for even the smallest department!

Quick-PD Records Management Software is designed for even the most novice of computer users. Our intuitive screens enables agencies to train quickly and effectively.

The job is hard enough. The paperwork should be easy. And with Quick-PD Records Management Software, it is.

- ✓ Scan the Drivers License in the cruisers, instantly creating the ticket in QuickPD.
- ✓ Upload the ticket, with the correct balance, to our web-server so that the violator may pay it with out ever having to call your office! Or the tickets may be exported to Quick-Court for your Court to process.
- ✓ Download paid ticket information electronically and post to the ticket that was paid. Easily track and report on paid and unpaid tickets. System will auto disperse payments and track which agency/department gets how much money.

- ✓ Court Dockets are easily generated for each court date.
- ✓ System will print Drivers License Suspension Letter, Drivers Revocation and Warrants. Every Violator has their own Ledger.
- ✓ Easily create new Incidents/Cases utilizing shared Master records and drop down boxes. Fact is, our clients tell us that they can create a new Incident in Quick-PD in half of the time it takes in LEMIS! Time is money!
- ✓ Complete Narratives quickly and accurately, using the built in spell check. May be forwarded for review, easily add a Supplemental Report, and may be locked when completed.
- ✓ Cases may be sent to the Criminal Investigations Department and assigned to a detective and easily tracked. The case will be removed from the C.I.D. queue, when it is marked completed.
- ✓ Attach pictures, video's, and documents to each Incident/Case.
- ✓ Property Room Module: Complete property and evidence records, chain of custody and check-in and check-out logs
- ✓ UCR reporting is accurate and effortless with Quick-PD!
